

- EU funded project - **"Sector Wide Approach"**  
Project duration: three years 2010-2013,  
Project budget: 3 million euro.
- Education has been a priority for the Government of the Republic of Kosovo for these 2 years and a half.
- Kosovo education now is a priority for European Union as well, where together with EU commitments and support we intend to implement our common vision of building a society based in knowledge and competitive skills, integrated in European flows, providing equal opportunities for advancement of every individual to prepare them to contribute in a sustainable social, economic, cultural and political development.
- Objective of "Education Sector Wide Approach" Project is to support the Kosovo Government in improving the quality and efficiency of the provision of education, notably pre-university education with a focus on lifelong learning development, promoting a new approach in development and monitoring of the progress in education sector, ensuring that all education sector strategies are together in an action plan and implementing strategy.
- It provides technical assistance, towards a strategic approach in the education sector where every essential element of the sector are coherently planned based on the policies of the Government of the Republic of Kosovo, and where are clearly reflected our education priorities. Such an approach will allow the development of a modern and balanced education system in the Republic of Kosovo.
- This Project will provide support in the implementation of Kosovo Curriculum Framework through the development of subject curricula and by promoting an inclusive approach of minorities in education.
- The implementation of KCF depends not only on a successful development of subject syllabuses and development of key competences through curriculum learning areas but also on the continual and effective teacher training and retraining.
- New Kosovo Curriculum Framework
- KCF implementation is a big challenge for Kosovo schools.
- Subject curricula
- Changes supported by "Education Sector Wide Approach" Project in the teaching methodology which are required by KCF will provide a big support on reforming the whole teacher training, teacher licensing, accrediting and teacher advancing system.

- The Project will assist in the further development of Teacher Competency Profile and teacher training catalogue, as well as in building capacities for the development of training policies in order to improve continually the quality of pre-university education (primary and secondary) in the Republic of Kosovo.
- Pre-university education reforms in Kosovo together with the development of modern curriculum and syllabuses requires the provision of quality teaching, where all teachers will have the opportunity to attend additional training over the following years in order to achieve our vision for an educated nation ready to take its place in the future in European Union and beyond.
- The role and importance of State Council for Teacher Licensing.
- The establishment of Agency for Curriculum, Standards and Evaluation.
